To Whom It May Concern:

I recently had the opportunity to meet and work with Jeremy Snell. I was researching an oil to gas conversion for my home, requiring new appliances as well as modifications for the installation. I had already met with a competitor of Jeremy's.

Within a very few minutes of talking with Jeremy, it was clear to me that he and his firm would get my business. The appliances were similar. The costs were nearly the same. It was Jeremy that made the difference and the sale. He is knowledgeable about both the products he sells and the install. He listens closely to questions and concerns and addresses them. He advocates for the client and makes certain what he promised occurs. His follow through is exemplary. Most importantly, Jeremy is friendly and a joy to work with.

Jeremy truly goes above and beyond what is required. He filled out paperwork for rebates rather than simply giving them to me. He assisted in reinstalling sheetrock after the gas line install because he felt it should be done. He is trustworthy, respectful and he has integrity (a trait not often found in today's world).

I enthusiastically recommend him in the business world. If you require further information, please contact me.

Sincerely,

Tamar Bailey
